STATE DAIRY OFFICIALS, 1900.

The State laws under which the dairy commissioners' and dairy and food commissioners' offices are created, and those especially relating to dairy matters, were compiled and published by the Dairy Division (Dairy, No. 21) in 1898. Many laws for the protection of dairy products, passed by State legislatures, are inoperative. In some cases courts have failed to sustain the statutes; in others the nonenforcement is due to neglect to provide the necessary special officers and funds. The cost of enforcing the laws referred to varies greatly in the different States. This information can not be exactly obtained, as it is the custom to make but one appropriation for dairy and other food work, and expenditures for the former are not keptseparately. In some cases the amounts used in the interest of pure dairy products reach \$10,000 per year, and this amount is far exceeded in two or three States. The salary of the executive officer rarely exceeds \$2,000.

The following is a list of the commissioners and other principal officers:

Agent and secretary of the State dairy bureau, William Vanderbilt, California. Assistant agent, William H. Saylor. San Francisco.

Colorado. State dairy commissioner, T. L. Monson, Denver. Deputy commissioner, J. P. James.

Connecticut. Dairy commissioner, J. B. Noble, Hartford. Deputy commissioner, R. O. Eaton.

State food commissioner, Alfred M. Jones, Room 1623, Manhattan Building, Chicago. Assistant commissioner, J. H. Monrad.

Indiana. Secretary of the State board of health, J. N. Hurty, Indianapolis.

Iowa. Dairy commissioner, B. P. Norton, Des Moines.

Massachusetts. Executive officer of the State dairy bureau, James W. Stockwell, secretary of the State board of agriculture. Assistant executive officer, George M. Whitaker, Box 1332, Boston.

Dairy and food commissioner, Elliot O. Grosvenor, Lansing. Deputy commissioner, William H. Tunnicliffe.

State dairy and food commissioner, J. M. Bowler, St. Paul. Assistant commissioner, B. D. White.

Food commissioner, the governor of the State. Deputy commissioner, F. B. Hibbard, Lincoln.

State dairy commissioner, George W. MacGuire, Trenton.

New York. Commissioner of the department of agriculture (including dairy), Charles A. Wieting, Albany. Assistant commissioners. G. L. Flanders, Albany, F. J. H. Kracke, No. 317 Washington Market, New York City.

Ex officio State dairy commissioner, the State commissioner of agriculture and labor. Assistant dairy and food commissioner, E. E. Kaufman, Fargo.

Ohio. Dairy and food commissioner, Joseph E. Blackburn, Columbus.

Oregon. Dairy and food commissioner, J. W. Bailey, Portland.

PENNSYLVANIA. Dairy and food commissioner of the department of agriculture, Levi Wells, Harrisburg.

UTAH. Dairy and food commissioner, H. J. Faust, jr., Salt Lake City.

Washington. State dairy and food commissioner, E. A. McDonald, Seattle.

Wisconsin. Dairy and food commissioner, H. C. Adams, Madison. Assistant commissioner, C. W. Sweeting.

CANADA. Commissioner of the department of agriculture and dairying, James W. Robertson, Ottawa.

DAIRY ASSOCIATIONS, 1900.

The chief work of dairy associations is educational, but they also take an interest in all matters pertaining to the industry, especially legislation and the enforcement of dairy laws.

Most of the organizations named below publish the proceedings of their annual meetings. These are sometimes included with the reports of the State departments of agriculture, but are usually issued separately. It is now difficult to obtain full sets of reports of the older associations, which embrace much dairy information of a valuable and practical character. The same is true of reports of the American Dairymen's Association (1866–1880) and the Northwestern Dairymen's Association (1867–1883), which were disbanded when their field of operation had become occupied by the younger associations in the several States. associations in the several States.

associations in the several States.

A considerable part of the expenses of holding conventions and publishing reports is met by membership fees which are generally \$1 per year, and special subscriptions of private individuals, firms, and towns where meetings are held; also by receipts from advertisements inserted in the official programs. But in some States the expenses are largely defrayed by annual grants by the legislatures. From this source the Minnesota Dairymen's Association and Wisconsin Dairymen's Association receives \$1,500, the Connecticut Dairymen's Association, and the associations in Vermont and Nebraska receive \$1,000 each; the New Hampshire Association receives \$300; the Wisconsin Cheese Makers' Association receives \$400; the Michigan Dairymen's Association receives \$300, and the expense of printing the annual reports; the Minnesota State Butter and Cheese Makers' Association receives about \$250, and the Georgia Association \$50. In Iowa the expense of printing and distributing the proceedings of the annual meetings of the State Dairy Association is borne by the State.

Prizes, consisting of money and articles useful in the dairy, are frequently offered by the supply trade and others for the best packages of butter and cheese exhibited at the meetings.

Following is a list of all dairy associations whose interests cover any considerable part of a State, or larger territory:

DAIRY SCHOOLS, 1900.

In the prominent dairy States, and in several others, the State agricultural colleges conduct dairy schools in which they offer short courses in the different branches of dairying. Instruction continues a few weeks and is given by lectures, laboratory practice, and work in the dairy. It includes the principles of breeding and feeding dairy cattle, practical exercises in testing milk, and the manufacture and care of dairy products; in some cases, also, the pasteurization of milk and a brief study of dairy bacteriology. There are few entrance requirements.

All of the instruction given in the short courses is offered to students taking the full college courses in agriculture, and these have opportunity to pursue advanced work and to specialize along lines in

in agriculture, and these have opportunity to pursue advanced work and to specialize along lines in which they are most interested.

As a rule all the work in the creamery and cheese factory short courses bears directly upon these industries, while in the farm dairy courses subjects less closely related to dairying are usually taken. The kinds of short courses offered, the seasons at which given, and the addresses of persons from whom full particulars can be obtained are stated below. In some of the States not named the regular college courses in agriculture include instructions in dairying, and in these cases arrangements can usually be made to take lectures and laboratory work and, at time, practical work along dairy lines, by corresponding with the professors of agriculture at the State agricultural colleges. Unless otherwise stated the institutions referred to are the State agricultural colleges.

OFFICIALS IN CHARGE OF MILK INSPECTION IN SOME OF THE LARGE CITIES, 1900.

The local boards of health or health officers are usually charged with the duty of supervising the sale of milk in cities and towns, and the supervision consists principally of occasional examinations to ascertain if the milk offered for sale complies with the required chemical standard. Sanitary regulations are enforced, in most cases, in dairies within city limits where such are allowed to exist, but beyond this little is done along sanitary lines except to stop the sale of milk from dairies whose product is supposed to be especially dangerous to the public health.

Milk dealers and peddlers are usually required to register with the milk inspector and in some cities to obtain a license from his office.

The officials in immediate charge of milk inspection in some of the large cities are as follows:

ALLEGHENY, PA. Milk inspector, John Lippert.

BALTIMORE, Mp. In charge of milk inspection of health department, G. W. Lehman.

Boston, Mass. Milk inspector, Charles Harrington.

Buffalo, N. Y. Milk inspector, Edward Clark.

CHICAGO, ILL. Chief of milk division, department of health, Ernest B. Stuart.

Cincinnati, Ohio. Milk inspector, A. C. Busch.

CLEVELAND, OHIO. Inspector of food, Charles H. Stone, jr.

Denver, Colo. Milk inspector, Henry Bottomley.

DETROIT, MICH. Milk and food inspectors, E. H. Troy and Douglas Long.

Indianapolis, Ind. Milk inspector, H. W. Langenberg.

JERSEY CITY, N. J. Dairy inspector, John F. Nagle.

KANSAS CITY, Mo. Milk inspector, W. J. Phillips.

LOUISVILLE, KY. Health officer, M. K. Allen.

MILWAUKEE, WIS. Milk inspector, Harry Kiehl.

MINNEAPOLIS, MINN. Milk inspector, W. D. McCall.

NEWARK, N. J. Milk inspector, William H. Lyle.

NEW ORLEANS, LA. Milk samples are collected by the sanitary police of the board of health.

New York. Borough of Manhattan, chief inspector of foods, Edward W. Martin; Borough of Brooklyn, chief inspector of foods, Henry V. Walker.

OMAHA, NEBR. Milk inspector, L. K. Hutton.

PHILADELPHIA, PA. Chief inspector of milk, William J. Byrnes.

PITTSBURG, PA. Milk inspector, David Price.

Providence, R. I. Milk inspector, Walter J. Scott.

ROCHESTER, N. Y. Meat and milk inspector, William O. Marshall.

St. Louis, Mo. Milk inspector, Henry J. Helwig.

In charge of milk inspection department, John Marti, second St. Paul, Minn. assistant commissioner of health.

SAN FRANCISCO, CAL. Chief sanitary inspector, W. P. Chalmers.

Washington, D. C. Health officer, William C. Woodward.

ASSOCIATIONS OF BREEDERS OF PURE-BRED DAIRY CATTLE, 1900.

The interests of the different breeds of dairy cattle are in charge of organizations of breeders which determine purity of breeding, verify pedigrees, register eligible animals, and publish herd books. Some of them record and publish sales and transfers, and attested records of dairy performances. They also establish standards of excellence. The details of the work are usually left to the secretary. The names of the various associations and the addresses of the secretaries are as follows:

AYRSHIRE BREEDERS' ASSOCIATION.
Secretary, C. M. Winslow, Brandon, Vt.

Brown Swiss Breeders' Association. Secretary, N. S. Fish, Groton, Conn.

American Devon Cattle Club. Secretary, L. P. Sisson, Newark, Ohio.

DUTCH BEITED CATTLE ASSOCIATION OF AMERICA. Secretary H. B. Richards, Easton, Pa.

AMERICAN GUERNSEY CATTLE CLUB. Secretary, Wm. H. Caldwell, Peterboro, N. H.

HOLSTEIN-FRIESIAN ASSOCIATION OF AMERICA. Secretary, F. L. Houghton, Brattleboro, Vt.
